Food, services and goods in Kazakhstan's regions: price changes in August

Astana

16 September 2025

In August, **annual inflation** in the country rose by **12.2%** (11.8% in July). Increase in the annual inflation was reported in 17 regions, while a slowdown was recorded in three regions.

Food prices in August grew by 11.7% year-on-year (11.2% in July). The highest price increase for these products was reported in Ulytau Region (14.8%), while the minimum was reported in Almaty City (8.7%).

At the end of August, **non-food prices** grew by 9.7% year-on-year (9.5% in July). The highest increase was recorded in Abai Region (12.6%) and the lowest in Almaty City (7.5%).

Growth pace of prices for **paid services** sped up in August to 15.3% year-on-year (14.9% in July). However, price growth in Mangistau Region (9.8%) was significantly lower than the national average.

In August, **monthly inflation** in the country rose by 1.0%.
